The Sexual and Reproductive Health Profiles have been developed by Public Health England to support local authorities and public health leads monitor the sexual and reproductive health of their population and the performance of local public health related systems.

The profiles provide a snapshot of sexual and reproductive health across a range of topics including teenage pregnancy, abortions, contraception, HIV and sexually transmitted infections. Wider influences on sexual health such as alcohol use, and other topics relating to teenage pregnancy such as education and deprivation level, are also included.

This output report provides selected data presentations showing how your local authority compares to the England value and other local authorities in your region.

Please refer to the online tool for accompanying advice and further presentations including interactive maps and other options for grouping and comparing your local authority.

Key Indicators

Syphilis diagnosis rate / 100,000 - All syphilis diagnoses among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Gonorrhoea diagnosis rate / 100,000 - All gonorrhoea diagnoses among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Chlamydia detection rate / 100,000 aged 15-24 (PHOF indicator 3.02) - All chlamydia tests (asymptomatic screens and symptomatic tests) undertaken in 15 to 24 year olds attending GUM clinics, primary care and community services who are residents in England, expressed as a rate per 100,000 population. Data excludes people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad. The England total includes tests which did not have sufficient location information to be attributed to a local authority of residence.

Chlamydia proportion aged 15-24 screened - All chlamydia tests (asymptomatic screens and symptomatic tests) undertaken in 15 to 24 year olds attending GUM clinics, primary care and community services who are residents in England. Data excludes people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad. The England total includes tests which did not have sufficient location information to be attributed to a local authority of residence.

All new STI diagnoses (exc Chlamydia aged <25) / 100,000 - All new STI diagnoses (excluding Chlamydia in under 25 year olds) among people accessing genito-urinary medicine (GUM) services who are resident in England. Data exclude people accessing GUM services located in England who are resident in Wales, Scotland, Northern Ireland or abroad.

HIV testing coverage, total (%) - The proportion of ‘Eligible new GUM Attendees’ in whom a HIV test was accepted.

‘Eligible new GUM Attendee’ is defined as a patient attending a GUM clinic at least once during a calendar year. Patients known to be HIV positive, or for whom a HIV test was not appropriate are excluded.

1 E1B, E2B, E3A2, E3B, H, H2
2 P1C

Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

HIV late diagnosis (%) (PHOF indicator 3.04) - All adults (aged 15+ years) newly diagnosed with HIV infection with CD4 counts available within 91 days of diagnosis and with known residence based information.

HIV diagnosed prevalence rate / 1,000 aged 15-59 - People aged 15 to 59 years who were seen at HIV care services.

Under 18s conception rate / 1,000 (PHOF indicator 2.04) - Conceptions in women aged under 18 per 1,000 females aged 15-17

Under 18s conceptions leading to abortion (%) - The percentage of conceptions to those aged under 18 years that led to an abortion

Sexual offences rate / 1,000 (PHOF indicator 1.12ii) - Rate of sexual offences based on police recorded crime data per 1,000 population

HIV & STI

Syphilis diagnosis rate / 100,000 - All syphilis diagnoses among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Gonorrhoea diagnosis rate / 100,000 - All gonorrhoea diagnoses among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Chlamydia detection rate / 100,000 aged 15-24 (PHOF indicator 3.02) - All chlamydia tests (asymptomatic screens and symptomatic tests) undertaken in 15 to 24 year olds attending GUM clinics, primary care and community services who are residents in England, expressed as a rate per 100,000 population. Data excludes people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad. The England total includes tests which did not have sufficient location information to be attributed to a local authority of residence.

Chlamydia proportion aged 15-24 screened - All chlamydia tests (asymptomatic screens and symptomatic tests) undertaken in 15 to 24 year olds attending GUM clinics, primary care and community services who are residents in England. Data excludes people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad. The England total includes tests which did not have sufficient location information to be attributed to a local authority of residence.

Chlamydia diagnostic rate / 100,000 - All chlamydia diagnoses among people accessing GUM clinics, primary care and community services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Chlamydia diagnostic rate / 100,000 aged 25+ - All chlamydia diagnoses among 25+ year olds accessing GUM services, primary care and community services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

Genital warts diagnosis rate / 100,000 - All diagnoses of first episode genital warts among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are resident in Wales, Scotland, Northern Ireland or abroad.
Lewes

Genital herpes diagnosis rate / 100,000 - All diagnoses of first episode genital herpes among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are resident in Wales, Scotland, Northern Ireland or abroad.

New STI diagnosis rate / 100,000 - All new STI diagnoses among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are resident in Wales, Scotland, Northern Ireland or abroad.

All new STI diagnoses (exc Chlamydia aged <25) / 100,000 - All new STI diagnoses (excluding Chlamydia in under 25 year olds) among people accessing genito-urinary medicine (GUM) services who are resident in England. Data exclude people accessing GUM services located in England who are resident in Wales, Scotland, Northern Ireland or abroad.

STI testing rate (exc Chlamydia aged - All tests for syphilis, HIV, Neisseria gonorrhoeae and chlamydia (aged over 25) among people accessing GUM services in England who are also residents in England, expressed as a rate per 100,000 population. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

STI testing positivity (exc Chlamydia aged <25) % - All new STI diagnoses (excluding Chlamydia in under 25 year olds) among people accessing GUM services in England who are also residents in England, expressed as a percentage of the number of STI tests performed. Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

HIV testing uptake, total (%) - The number of 'Eligible new GUM Episodes' where a HIV test was accepted as a proportion of those where a HIV test was offered. Multiple episodes of HIV test offer and uptake are included per individual within a year.

‘Eligible new GUM Episode’ is defined as a visit to a GUM clinic including all subsequent GUM attendances in the following six weeks (i.e. eligibility for testing occurs only once every six weeks). Attendances by known HIV positive patients, or where a HIV test was not appropriate are excluded.

1 E1B, E2B, E3A2, E3B, H, H2
2 P1C

Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

MSM includes men who reported a homosexual or bisexual orientation. For uptake of HIV testing, MSM is defined based on a patient’s entire clinic attendance history (i.e. a man is classified as MSM for all attendance years including and following the earliest year a man identifies as MSM).

HIV testing coverage, total (%) - The proportion of ‘Eligible new GUM Attendees’ in whom a HIV test was accepted.

‘Eligible new GUM Attendee’ is defined as a patient attending a GUM clinic at least once during a calendar year. Patients known to be HIV positive, or for whom a HIV test was not appropriate are excluded.

1 E1B, E2B, E3A2, E3B, H, H2
2 P1C

Data exclude people accessing GUM services located in England who are residents in Wales, Scotland, Northern Ireland or abroad.

MSM includes men who reported a homosexual or bisexual orientation. For coverage of HIV testing, MSM is defined based on a patient’s entire clinic attendance history (i.e. a man is classified as MSM for all attendance years including and following the earliest year a man identifies as MSM).

HIV late diagnosis (%) (PHOF indicator 3.04) - All adults (aged 15+ years) newly diagnosed with HIV infection with CD4 counts available within 91 days of diagnosis and with known age.

HIV diagnosed prevalence rate / 1,000 aged 15-59 - People aged 15 to 59 years who were seen at HIV care services.

Reproductive Health

Pelvic inflammatory disease (PID) admissions rate / 100,000 - Crude rate of pelvic inflammatory disease (PID) admissions in women aged 15-44 years per 100,000 population (women aged 15-44 years)

Ectopic pregnancy admissions rate / 100,000 - Crude rate of ectopic pregnancy admissions to hospital in women aged 15-44 years per 100,000 population (women aged 15-44 years)

Cervical cancer registrations rate / 100,000 - Directly age-standardised rate of cervical cancer registrations per 100,000 female all age population

Teenage Pregnancy

Under 18s conception rate / 1,000 (PHOF indicator 2.04) - Conceptions in women aged under 18 per 1,000 females aged 15-17

Under 18s conceptions leading to abortion (%) - The percentage of conceptions to those aged under 18 years that led to an abortion

Under 18s births rate / 1,000 - Births in women aged under 18 per 1,000 females aged 15-17

Wider Determinants of Health

Under 18s alcohol-specific hospital admissions rate / 100,000 - Persons admitted to hospital due to alcohol-specific conditions – under 18 year olds, crude rate per 100,000 population. See LAPE user guide for further details - http://www.lape.org.uk/downloads/Lape_guidance_and_methods.pdf

Percentage people living in 20% most deprived areas in England - Percentage of the relevant population in this area living in the 20% most deprived Lower Super Output Areas in England.

Under 16s in poverty (%) (PHOF indicator 1.01i) - Percentage of children in low income families (children living in families in receipt of out of work benefits or tax credits where their reported income is less than 60% median income) for under 16s only

GCSE achieved (5A*-C inc. Eng & Maths) (%) - Percentage of pupils achieving 5 or more GCSEs at grades A*-C (including English and Maths) or equivalent, percentage of pupils at end of Key Stage 4 in schools maintained by the Local Authority, at the end of the academic year, persons.
Pupil absence (%) (PHOF indicator 1.03) - Percentage of half days missed by pupils due to overall absence (including authorised and unauthorised absence).
